II. Booth Management

(I) The exhibitors of overseas delegation are qualified for booths after check, confirmation and record of company identity by Overseas Delegation. The actual use unit of booths must comply with the exhibitor indicated clearly on booth signboard.

(II) The booths shall not be transferred or subleased (resold) in violation of regulations. If the actual use unit of booths does not comply with the exhibitor indicated clearly on booth lintel board, it shall be regarded as transferring or subleasing (reselling) the booths in violation of regulations. Including:

   1. Transferring the booths to the affiliated unit for use in the name of joint venture.
   2. Transferring the booths to the goods supply, cooperation and sponsoring units for use in the name of goods supply or cooperation (incl. sponsoring).
   3. Signing a contract with any other third party in the name of non-exhibitor (that does not pass qualification examination and recheck and not be put on record).
   4. Transferring (lending) the booths to any other unit for use in the name of lending.
   5. Exchanging the booths without permission.
   6. Charging the goods supply, affiliation and cooperation units too much exhibition fees.
   7. Any other action of transferring or subleasing (reselling) the booths in violation of regulations.

(III) If the exhibitors violate the above-mentioned regulations, it shall be regarded as transferring or subleasing (reselling) the booths in violation of
regulations. The exhibitors who transfer or sublease (resell) the booths in violation of regulations shall be treated as follows:

1. Circulating a notice of criticism.
2. Confiscating the earnings from transferring or subleasing (reselling) the booths in violation of regulations.
3. Abating the booths transferred or subleased (resold) in violation of regulations. For grave circumstances, suspend the qualification of the exhibitors.

III. Instructions for Booths

(I) Booth Location

The sponsor shall allocate the booths in a unified way in accordance with application of exhibitors and the exhibitors shall comply with the unified arrangement.

(II) Standard Booth: 3m×3m

Height of walls: 2.5m, height of display: 2.4m

The sponsor shall provide a set of basic configuration in the standard booth, including one aluminum alloy square table for negotiation, four folding chairs, one 220V/500W power socket (it is used only for standard booth but not used for the lighting power supply of self-provided lighting fixture), four spotlights, one consulting desk with lock, one lintel board in both Chinese and English and carpet.

IV. Special Booth Construction, Furniture Renting and Reconstruction

(I) Application for Special Booth

East China Fair requires that the exhibitors with two or above booths should construct the booths in the form of special booth so as to show the corporate image fully and in harmony with the overall construction of the fair. The overseas exhibitors who need special booth shall submit design scheme to the Council Office of East China Fair before Jan. 20\textsuperscript{th}, 2019, and the booth construction can be carried out after passing the check and fire protection examination.

1. Content of special booth construction application
   (1) Three-dimensional color effect chart of design scheme
   (2) Plan view of design scheme (incl. detailed instructions for size and material)
   (3) Material relating to power utilization (incl. electrical connection diagram, electrical distribution diagram and total electric power consumption, etc.)
   (4) Furniture Rent Form
   (5) A4 specification for design drawing and text description. (Fax is not accepted)
2. Requirements of special booth construction

1. Construction unit must comply with strictly the Administrative Provisions for Fire Safety of the Exhibition Industry of Shanghai.

2. The nylon elastic cloth is strictly prohibited to be used as construction material in exhibition hall.

3. The iodine tungsten lamp is strictly prohibited to be used in exhibition hall; the neon lamp shall be installed above 2.5m.

4. As for the design and construction of all special booths (incl. trade delegations and exhibitors), the vertical orthogonal projection shall not exceed the range of reserved space and the height of culmination point shall not exceed 4.45m. The exhibition office shall order to dismantle the part that exceeds the prescribed height.

5. The back side of wall of adjacent booths shall be decorated so as not to affect the adjacent booths.

6. Any propaganda prop (exclude the marks indicated by the Fair) is prohibited to be hung overhead in exhibition hall.

7. The construction unit shall not change any application content that has been examined and approved, such as drawings, etc. without authorization; if necessary, it must be approved by exhibition site office. If the construction changes it without authorization, the East China Fair shall not supply power, and moreover, give warn even more give a punishment.

8. The special booth construction unit shall be charge of the construction and maintenance work of special booths; the trade delegations concerned shall be charge of the supervision; the exhibition office shall organize security inspectors for safety inspection.

(II) Apply for Discharge Permit

Please apply for discharge permit with Vehicle Registration, Driver’s License and Exhibitors Badge if Exhibitors need to transport the exhibits into the exhibition hall themselves.

Location: South Square of Shanghai New International Expo Center

(III) Furniture Renting

Please see the Furniture Rent Form.

(IV) Reconstruction

The construction of standard booth and the layout of exhibition equipment and facilities are shown as figure 3. If the exhibitors need to change the layout concerned, please fill in Attached Form 2 (incl. schematic drawing) and submit it stated as the form before Jan 30th, 2019.

Otherwise, the booth would be set up in a normal standard way.
Facilities in Standard Booth (Fig. 3)

标准配置：
洽谈桌 1个
折椅 4把
锁柜 1个
射灯 4个
220V插座 1个
楣板灯箱 1个
废纸篓 1个
V. Instructions for Move in and Move out

1. The booth construction and teardown, under the uniform command of the East China Fair Exhibition Office, shall accord with the *Administrative Provisions for Fire Safety of the Exhibition Industry of Shanghai*.

2. The booth construction personnel shall enter the exhibition hall with their booth Construction Badges issued by the East China Fair Security Office, for move-in and move-out. Construction Badges will be used for booth construction from Feb. 26 to Feb. 28, and for move-out period.

3. The floor load of exhibition hall of Shanghai New International Expo Center is within 3,000 kilograms per square meter (i.e. 3,000 kg/m²). The floor load of impact or vibratory samples shall be within a half (50%) of the load above.

4. The booth construction and teardown units shall not dismantle, reconstruct, damage or foul the original structures or facilities, e.g. doors, windows, pillars, walls. The walls shall not be nailed or bored. A Trolley with rubber wheels or nylon wheels.

5. It’s forbidden to use nylon elastic cloth for booth construction. It’s also forbidden to take combustibles, explosives or radioactive articles into the exhibition hall, but these articles, if specially needed, may be admitted to the exhibition hall, subject to the security office’s approval upon detailed materials offered by the booth construction and teardown unit. In addition, such articles shall be placed at a designated place and kept by a person specially assigned for the task.

6. The booth construction and teardown units shall not move the equipment or facilities originally equipped in the booths at will.

7. If any particular demand for building a booth, the booth construction and teardown unit must contact the exhibition office in advance for approval, and the building shall not be commenced before such approval.

8. If any question or requirement during the exhibition session, the booth construction and teardown unit can contact the field personnel of the exhibition office for solution.

9. In order to guarantee the safe use of power in the exhibition hall, the booth construction and teardown units shall not dismantle, move, increase or reduce the original electrical equipment or lighting fixtures at will. The specified power consumption is 500W per standard booth.

10. It’s forbidden to use iodide tungsten lamps for booth construction. If additional circuit(s) is needed for electric appliances such as lighting fixtures and advertising lamps, the exhibitors must not connect the wires by themselves but contact the field personnel of exhibition office in advance for help.

11. The booth construction and teardown units must comply with the power utilization regulations, and their electricians must be qualified ones with relevant certificates and comply with operation specifications for safe use of power.

12. The distance between a show plate and a wall must be at least 50 cm, The vertical orthogonal projection of a special booth shall not exceed the scope of reserved open space, the culmination point of the projection shall not be more than 4.45 meters, otherwise the booth must be dismantled upon the order of exhibition office.
13. It’s forbidden to use any electric cooking equipment in the exhibition hall.
14. Wood structures shall not be used for specially arranging a booth. If a wood structure is needed, fire-proof treatment by fireproof material or fire-refractory coating must be made for the wood structure in advance. Any transformer shall not be directly fixed onto a combustible.
15. The booth construction and teardown units must take good care of the booths. Both the show plates and show shelves shall not be nailed or bored, otherwise the
16. If overtime work is needed during booth construction, the booth construction unit must apply for such overtime work with the exhibition office before 14:00 of the very day, and bear the fees related.
17. No smoking is permitted in the exhibition hall.
18. The booth construction and teardown units must coordinate with the fire prevention inspection organized by East China Fair. It’s forbidden to pile any articles on a fire safety passage, if such articles are lost, the exhibitor must bear the liability by itself. The measures for rectification and improvement put forward by the fire prevention group must be executed immediately.
19. The booth construction and teardown units must comply with related regulations, otherwise they shall bear any liabilities related to property loss or casualty, if any.

VI. Instructions for Power Utilization

(I) Security Responsibility and On-site Watch
The security of power utilization for booths shall be on the principle of “who is in charge shall be responsible for security”. The exhibitors and construction unit affiliated to special booths shall be responsible for the security of power utilization for booths and be in duty bound to comply with the instructions carefully. The on-duty electricians shall be available during opening ceremony to take charge of turning on and turning off light and cutting off power supply of the booths, and moreover, the name list, contact telephone and watch site of on-duty electricians shall be reported to exhibition site office for the record.

(II) Regulations on Electrical Safety
1. The regulations on electric power utilization must be strictly executed; the electricians must have valid operation certificate and comply with consciously the operating rules on electric power utilization safety.
2. The used electrical materials, facilities and equipment must conform to national product quality standard and meet the requirements of fire safety.
3. The distribution switch box must be equipped with 30mA leakage protector. The electrical wire must be type of ZR-BVV (flame-proof dual-plastic copper wire) and sheathed wire. Metal protection tubes and metal components must be set with
electrical cross connection and be grounded well for safety. Each electrical circuit must be provided with private protection ground wire and connected with metal components that may contact leakage current.

4. The power heat lamps shall be provided with protective cover. The iodine tungsten lamp and above 150W high-power lamp are strictly prohibited to be used. The down lamps and quartz lamps shall be protected by asbestos pad; the convective heat emission holes must be available in advertising lamp housing and lamp post. The lamp rectifier and trigger must be acceptable product tested by fire department.

5. It is not allowed to keep out or cover the lighting electric box, dynamo-electric box and telephone distribution box in exhibition hall during construction. The booth construction and teardown units are not allowed to dismantle and increase or decrease all fixed electrical equipment and lighting fixtures in exhibition hall. The power socket applied must be used strictly within allowed maximum capacity-500W and it is not allowed to insert the electrical equipment that exceeds the allowed maximum capacity. It is strictly prohibit self-providing plug-in board for use in series and any exhibitor who violates the regulations will be investigated and given punishment accordingly.

6. As for the exhibits or equipment and facilities that need to supply power for 24h one day, the exhibitors shall report to the organizer before February 28th.

7. If the electric power consumption needed exceeds the prescribed, the exhibitors shall submit an application to the organizer 20 days in advance, after approved, the construction can be carried out.

(III) Handling in Violation of Regulations

1. For the exhibitors who do not make an application for power utilization and switch in power supply in disorder without permission, the power supply for the booths shall be cut off and the exhibitors shall be punished two times of fees of power consumption of electrical equipment connected without permission.

2. The exhibitors who destroy electrical equipment in exhibition hall shall be punished two times of equal value.

3. If the exhibitors do not report power consumption according to the facts and use more but report less, the fair electricians have the right to charge the exhibitors to make up for the fees.

4. If it is found out through inspection that the booths violate the safety management regulations and do not meet safety requirements as a result of forming hidden danger to safety, the power supply of the booths shall be stopped and the Fair shall charge the exhibitors to rectify or dismantle it.

5. As for the booths that an accident happens because of violating power unitiziation regulations, the Fair shall investigate the responsibility of the party
concerned and the person in charge of the exhibitor till investigate into the legal responsibility.

VII. Onsite Management and Service

(I) Overtime Application

If needing to work overtime during booth construction and teardown, the exhibitors shall submit a written application to the Fair “one-stop service office” before 15:00 on that day; if the exhibitors submit an application after 15:00, 150% fees shall be charged. (Handling place: south entrance hall during construction; W3-M4 office at east side of W3 hall after opening)

Charges: 18:00-22:00 RMB 1600.00 yuan/h/1000 M²
22:00-before dawn next day RMB 3200.00 yuan/h/1000 M²
(If the overtime area is less than 1000 M², it shall be calculated by 1000 M²)

(II) Onsite Management and Service Institution

A one-stop service center is set up on site. The field office under “one-stop service center” is responsible for building booths, power maintenance, logistics, lease of exhibition equipment, transport, hire purchase, ticket booking, tourism, security, reception and other field management and service affairs.

(III) Onsite Management Responsibilities

1. To serve, supervise and manage the booth construction by exhibitors and construction units.
2. To provide exhibitors with services such as booth dismantling or reconstruction, lease of exhibition equipment, opening telephones, e-business, samples warehousing, transport and handling.

(IV) Commitment for Onsite Service

The field service follows billing procedures. In order to improve the efficiency of handling service applying procedures, the applied services (exclusive of particular building) will be provided within 12 hours after the financial personnel of “one-stop service center” have issued the bill for exhibitors.
VIII. Hire Purchase of Exhibits

Shanghai ITPC Imp/Exp Co. will be responsible for the hire purchase of exhibits of overseas exhibitors.

Add: Room 1101, 208 Rushan Road, Shanghai, China
Zipcode: 200120  Tel: 021－58307677
Fax: 021－68757806  Contact: Mr. Zha Jiquan
Chapter IV Use of Badges

I. Instructions for Application for Badges

(I) Exhibitor Badges (Available from 27th Feb to 4th Mar)

1. Every standard booth (9m²) can apply for three exhibitor badges for free. Every additional badge will be charged 500 (five-hundred) Yuan upon collecting.
